1822 JR to DR. Nice gossip

1823, 26 Aug JR to DR announcing the death of DR's father

1829 JR to DR anent the latter agreeing to be JR's cautioner Edinburgh 27th Nov 1830, Torphican St.

My Dear Uncle, I should have answered your letter before now, more particularly as I have several circumstances to communicate regarding Genl Robertson's affairs that will interest you. I regret that the first thing I have to mention is of a private and rather painful nature. I do not know whether the genl has informed you that his son had been sent to a military College in England (I forget which). He had been there but a very short time when he became disgusted by the strict discipline observed by the scholars and privately left the place. The masters immediately wrote of this to his father and it seems that the old gentleman's visit to England was to recover and if possible to reclaim his son. How he succeeded I do not know. The account I have from my friend George Robertson whose connections are chiefly in Elgin & the neighbourhood. The Genl himself never alluded to the subject in his letters to me & this gives me some hope that the story may be unfounded or at least exaggerated. I have not hinted at it to anyone here & I am sure I need not recommend the same caution to you.

Geo Robertson often told me, before the present escapade, that the boy was spoilt by overindulgence & likewise that he wished the Genl was removed from Elgin on account of the connection with the Jenkinses which is by no means respectable in that, their native place. The father of the Genl's son-in-law was a Fiddler.

Oliphant has made a proposal through key that we should exhibit to him the evidence of Genl R's descent, and if he finds it satisfactory he will allow a Decree of Absolvitor to go out in the genl's favour. I propose going over the evidence very carefully with our Counsel, and if they think it perfectly ample and sufficient to show it to key. The Genl & James Condie both approve of this. Patton has examined the proof and declared himself satisfied with it & I am now arranging it for the inspection of the ex-Solicitor General Mr Hope. I must proceed very cautiously & with the best advice in this matter. Will you take the trouble to order a Certificate from the Session Books of the birth and baptism of all Robby Bane's sons that are entered. Will you likewise send me any papers belonging to or regarding Robby that John Auchanree may have; no matter how unimportant they may appear. I wish to have all.
